PROFESSIONAL EXPERIENCE

Full Stack Developer 11/2021 - Present

Jumeirah Hospitality Group via DataFirst Solutions Dubai,UAE

- Developed customer-facing **e-commerce** websites for **Dubai Holding Entertainment**. <https://insideburjalarab.com>, <https://wildwadi.com>, and <https://visithatta.com>
- Developed a sophisticated **Front Office Operations Dashboard** that provides real-time insights, empowering the front office team with capabilities to view upcoming **online checked-in guests, sign e-registration cards, payment status, guest reports** and more.

UI Engineer 03/2020 - 11/2021

Crayon Data Chennai, India

- Part of **Platform Solutions** team, responsible for UI Development with **ReactJS** and **Backend API Development** using **NodeJS** and following Agile software development cycle.
- Worked and closed more than **150+ JIRA** stories overall and completed a minimum of 3 new user stories with strict adherence to Sprint goals.
- Built an internal library for **PII Masking** and a **reporting framework** that enabled quick delivery of new features.
- Leap Award** and **Quick Starter** Award winner that is given to top ~5% employees in the startup.

Systems Engineer 11/2017 - 02/2020

Tata Consultancy Services Chennai, India

- Development of an **Internal Web application** (mini JIRA Clone) for logging QA Defects found in the mobile bank app for a US Client.
- Completing Vendor Security Questionnaires and evidence collection for SOC & PCI-DSS Compliance for a US Postal Company.
- Automated Security Questionnaire completion by maintaining a repository of canned response that reduced the TAT by more than 50%.

KEY ACHIEVEMENTS

Hotel Online Check-In Web App with AI Vision,OCR extraction and Facial Recognition

Developed the complete web app which is **first in the UAE region** in hospitality industry for Jumeirah Hospitality with a lean team.

<https://webcheckin.jumeirah.com/>

Digital Rebrand of Jumeirah Group

by developing multiple pages of <https://www.jumeirah.com/en> within short span that led to increase of direct channel bookings and popularity of the brand in the UAE.

Personalised Travel Concierge app that uses AI based recommendation engine

for a major lifestyle bank in Bahrain that serves their premium HNI customers and resulted in increased revenue.

F&B Recommendation in website for In-house Guests

to increase restaurant traffic and guest satisfaction by narrowing the choices to 3 most probable outlets that the guest might like based on their transaction history.

Super Ops App for Front Desk

empowering our colleagues to complete over **30 operational tasks** directly on the Property Management System (PMS) using mobile/tablet browsers which reduced check-in duration at the front desk under 5 minutes.
